

# PRESS RELEASE

FOR IMMEDIATE RELEASE  
MARCH 21, 2021

Portland, OR - In the year of Covid 19, we have witnessed the rising pandemic of anti-Asian racism. The cold-blooded murder of Asian American women along with others in Atlanta is only a culmination of nation-wide racial violence against Americans of Asian descent. We stand in solidarity with American of all races, genders, and creeds, who would join our fight against racism, xenophobia, misogyny and for social justice and equality.

Four years ago, we established Oregon Chinese Coalition in response to American judicial injustice. The challenge of racial discrimination and violence demands our continuous collective action. As fellow Oregonians, we call on our community to fight together against the revival of virulent racism, xenophobia, and misogyny for American justice and equality.

The Oregon Chinese Coalition has planned a series of protests in multiple cities across the state, scheduled for this Sunday from 11:00 AM - 1:00 PM, and we hope that as distinguished community leaders you can also come to voice your support for the members of your community who are afraid and agonizing.
