

Molecular Vision Lab COVID19 Test Procedures:

First of all. A phone (503-227-3179) appointment in advance. You need fill out a form by phone or you can go to the lab in person. Bring personal ID (driver license. Passport....) when you go to Lab to collect your sample.

Lab provides two kinds of method to collect sample. You can choose either one. One is saliva sample collection and other one is nasal cavity collection. Most people choose saliva collection because it is comfortable and easy. The nasal cavity sample collection will be more irritating. If you choose saliva sample collection, you must not eat and drink two hours in advance.

Lab provides two kinds of testing service. One is \$150 fee for 24 hour result back, and the other is \$99.00 fee for 48-hour result back.

If you cannot go to lab to take sample. Lab can mail test kit to your address. But you must have a witness to prove your sample is yours. Lab will give you instruction how to do it. It is recommended that you go to Lab and have professional staff to collect your sample.
